# FOUNDRY TRADE JOURNAL INDEX

## VOLUME 160

## JANUARY—JUNE 1986

**A**

Alumasc, putting value on Aluminium Diecastings, 136
AlpHaset Technology, 241
APV, 86
Art and Castings, 383
Automatic Boxless—mould Production, Cedric Foundries, 243

**B**

BCIRA, conference, 22, 321, 500
B F A—Scrap Metal prices dispute, 3
BSA expansion plans, 320
BSF: Scrap Metal Prices dispute, 3, Annual Report, 453
Betaset Users Conference, 362
Binder Technology Conference, 321
Binder Suppliers, Guide, 28
Bottom Pouring using Stopper Rods, 88
Bradley & Foster, Machining Ultra-hard Irons, 298
Brass Foundry Fumes Controlled, 188
Brunel University, Art Founding, 388
British Overseas Trade Board Awards, 276, 360
Building, 277
Business Design Centre, 277

**C**

Castings, Annealing plays Increasing Role, 128
Castings Heat Treatment, 128, Who Heat-treats, 134
Cast-iron Walrus, 472
Castings Withstand the Shock, 163
Catton & Co, 72, 84, 404, 508
China, Trucast License, 177
Cleaner Steel, at APV, 86
Coalbrookdale, Iron Dog Table, 177
Clay-Cross, new owners, 3
Computers, 145
Computers in the Foundry, 244
Computer Designed Feeder Systems, 247
Computerised Production in Foundries, at Webster, 246
Coremaking Technology, 231
Cosworth Process, IMMCO market, 223, Awards 360
Crays Alloys, Modest Size but Dynamic Outlook, 94
Customer expectations, 529
Crucibles, Bright Future, 193
Crucibles in the Foundry, 195
Cupolette Design, Development and Design, 31
Consumables, for the Foundry, 368
Cupola, Hot-blast Ceramic Recuperator, 48
Cupola, Installed in Pakistan Plant, 48
Cupola Operation—French Design gains Popularity, 38
Crucible Production, German Museum, 166
Cupola Technology, 31
Cupola Stack, Recovering Heat, 34
Czech Founderers, Nineteenth-century Castings reveal skills, 7

**G**

Decorative Castings, Icelandic Death Ride, 164, Walrus, 472, Mosque windows, 73, Victorian Glass,
Defence Minister Visit, 404
Diecasting Society, 436, 438
Diecasting, Immersion Technique, 435
Diecasting Supplement, 136, 430
Dupont Harper—Where Quality takes Precedence, 8
Dust Control, Recent Advances, 324
Dust and Fume, 324
Dunn, A. L., Back in the Black and Looking Brighter, 90
Dunnkirk Metals, 72, 226, 276

**E**

Education and Training in the Foundry, 432, 403, 425
Energy Efficienct Year, 72
Eros Flies Back, 320
Energy Conservation, 504
Export Award, Inspector wins, 360

**F**

Foundry Industry, Midland Press Mission, 229
Foundry International, promotion, 164
Foundrymen, junior competition, 502

**G**

Gravity-die Production, 436
Green Sand Technology, 278

**H**

Handling in the Foundry, 120
Harrison, Exploit Skills in the Non-Ferrous Field, 174
Heat-Treatment, contractors specialises in Light-alloy, 132
High Density Moulding, using good sand Management, 278
Humour, 165

**I**

IBF,
Golden Trowel Trophy, 360
Foundry Training Threatened, 116
London Branch Dinner, 98
West Midlands Branch Meeting, 98
Tom Wills Trophy, 149
West Midland Affiliation Lecture, 225
Metabrasive Works Visit, 361
Training Workshop, 405
Scottish Conference, 478
Innovation Award, 500

**J**

Japan, how Diecasters compete, 140

**K**

Kemlows, Computers spell Die Casting Success, 145

**L**

Ladles, Control of Teeming, 87
Ladle Technology, 86
London Metal Exchange, 452

**M**

Machining of Castings, 297
Machining, are you sharp enough to do your own, 296
Management Pool, training cuts will reduce, 423
Metals '86, 499
Mechanite Conference, 42
Mechanite Research Group, 118
Meigh's, Leaders in Aluminium Casting Technology, 168
Mirrlees Blackstone, 258
Multi user Systems Manages Sager—Richards Foundry, 254

**N**

New Dialogue, 71
Non-Ferrous Castings, 177
Noise Reduction, 348
Norse Precision Castings, 524

**O**

Old Iron, Foundry Project, 165

**P**

Parkray T.I., Ingenious Solutions to Economic Production, 376
PEP Award, winners, 72, 226
Polystyrene Moulds for production, at BSA, 320
Precision Diecasting at IMI, 430
Production, try raising with new Fork Lift Trucks, 120
Programmable Controllers in Diecasting, 244
P.I. Castings, new owners, 3
Pollutant Hazards produced by Chemicals in Moulding Material, 332

**Q**

Quality Control, 529
Queen's Award, 360

**R**

Radio, in Cab gives more control, 123
Replicast, process, 202
Robots, 126
Robots and Instruments, in modern foundry, 413

**S**

Safecast, 345, 426
Safety, Equipment and Instruments to make Foundry safer, 345
Sand Binder Systems, 231
Sand Resources for UK Foundry, 518
SCRATA, Research hit by Government Cut-Backs, 82
Integrated Energy Conservation Systems, 511
Scotland, Survey of Castings in, 454
Steel Founding in Britain, 81
Steelfounderies, is there a Future, 76
Sterling Metals Iron Foundry to close, 73,
Buy out, 223
Slurry Recycling in Clay-bonded Sand Systems, 287
Suppliers, Foundry discuss common Problems, 406

**T**

Training, Courses, Guide to, 424
Threatened say IBF, 116
By Post, 405

**V**

Vald Birn, Changing Markets, 481

**W**

Williams Holdings Buy Dupont, 404
Worship Company of Founders, 116

**Y**

Young Foundryman of the Year, 149

**Z**

Zincasting Competition, 368

### INDEX OF COMMENTS

Cupola resists the Onslaught, 1
Prague for Free, 115
Unparalleled Shop Window, 219
Two Days in the Sun, 275
Towards a Safer Workplace, 319
Stuck for a Word, 359
Training to Stay Healthy, 403
Scottish Success Story, 451
Three Months to go, 499

### INDEX TO AUTHORS

Ambidge, P. F., 332
Belder, D. de, 423
Biggins, P. D. E., 332
Donaldson, E. G., 42
Campbell, J., 90
Chambers, D. T., 324
Cairns, F., 324
Farrell, G., 341
Goggin, R. G., 42
Haan, David de, 7
Hallas, M., 128
Lamb, P. D., 296
Lister, H., 388
Nicholls, P., 31
Nokes, A. C., 34
McCombe, C., 472
Preston, G., 529
Reynolds, De. J. A., 76
Shaw, F. M., 287
Smith, D. J., 287
Stephens, H. T., 88
Wilton, M., 128

# FOUNDRY TRADE JOURNAL INDEX
# VOLUME 160
# JULY–DECEMBER 1986

A
Aerospace, Casting in, at Farnborough International '86, 455
Airedale Iron and Steel Company, new pig iron suppliers, 507
Animal Bronzes, 51
Award Winners, Craftsmen, 302, 304
IBF Competition, 182, 110

B
BCIRA, Seminar on Quality, Material Development, 427, 264
Blast Cleaning—Protectiing the Protection, 410
Bradley & Foster Limited, provide a tough response. Bradley & Foster made Iron, 402, 324
Alloy cuts maintenance,
British Federation of Scrap Dealers, 441, 108, 581
British Foundry Association,m campaign fund, 489
Bronze and other welding alloy melting capacity boostes, 264
BSC Cleveland Iron, Supplying the Market for Blast-furnace Pig iron, 501

C
Cast Iron Specifications, 182
Castings and Forgings '86 Preview, 54
Castings and Forgings '86, notable market exercise, 444
Cemenary celebrated by D. Wickham Limited, 156
Ceramicast Precision Investment Casting Limited, extended investment, 92
Chill-cast Camshaft Developments, 416
Closed, Butterley Foundry, 489
Computer-aided Design and Machining—lot to be learnt, 360
Computer, used for feeder systems, 146
Cradley Castings Limited, improve Customer Service, 556
Cylindrical Grinding, Selecting Abrasive Wheels, 150
Czech Research Institute, 423

D
Dean, Smith & Grace—a Yorkshire Foundry with a Difference, 602
Diecarting Quality Level—Control by Microprocessor, 381
Diecasting Supplement, 375, 614

E
Education in foundry Industry, 178
EITB publish Foundry Training Modules, 532
Engineering Council, Call for continuing Education and Training, 50
European Investment Castings Federation, 566
Exeter Castings, Limited, Where Flexibility and Service count, 544

F
FESA, 608
Fatigue Testing, 441
Ferrosilicon, Norwigian supplier, 503
Foundry International '86, preview, 112
Foundry International '86, Moulding and Coremaking, latest Developments, 534
Report on Fettling and Cleaning Equipment, 584
Foundry International '86, Sand Mixing. Cooling and Reclamation, Review, 598
Foundry Technology, developments previewed at Foundry '86 exhibition, 112
Foundry College, 108
Foundry Research, guide to Who does, 466, 516
Foundry Training Courses, Letters to Editor, 424
Fibre-reinforcing Process, BNF to Patent, 3
Furnaces '86, preview, 74

G
Galvanising Plant Efficiency, improved with Shotblast Room, 423
Glencast, Limited, All-round Service and Technical Innovation boost their reputation, 192
Grinding, Striking finish achieved for Rockers, 518, Grinding Risk, 592

H
How to Become a Registered Firm of Assessed Capability in British Standards, 310
High-purity Pig-iron from Norway, 272

I
Ironbridge Gorge Museum, working casting exhibit, Seventeenth century Furnace Comes to Life, 237, 188
Industry Year, John Hill & Sons play their part, 18
Institute of British Foundrymen, Annual Conference. Boost Image, 178, 302, 583

M
Magnets, use in the Foundry, 316
Materials for Cold-box from BIS Foundry, 52
Melting Costs, reduced at Duport Harper Foundries, 157
Melting Costs, new furnace at Anglesey Aluminium reduces, 518
Metals Engineering, '86, 487, 444, 344, 112
Minimum-cost Charging, how Inoculation effects, 510
Monometer Manufacturing Company, Limited export record, 426
MRT Castings Limited, Personal Service and High-profile means Business, 375
Midlands Foundry Training Centre Open Evening, 368
Manufacturing Director, First Lady for Foundry Industry, 368
Morris Ashby Limited, 617

N
National Engineering Laboratory, work in Investment Casting Research, 568
New equipment and Supplies for the Foundry, 5
New Melting and Holding Units, 492
Noise Containment in the Foundry Industry—a FESA Report, 608

O
Orion Precision Castings, Investment Casting Foundry, 560

P
Parkfield Foundries, Limited, turning Profit to Good Account, 244
Patternmaking Today, Industry in Transition, 359, 350
Patternmaking awards, 362, 51
Pig Iron, BSC supply market. Airedale, 501, 507
Iron and Steel Company, Guide to producers and suppliers. New Source, 508, 272
Precision Casting Supplement, 650
Programmable Shotblasting Cycle, Czech Research Institute introduces, 423

Q
Quality in the Metals Industry Conference, 315
Queen's Award for Export, 108
Queen's Birthday Honours, 2

R
Regenerative Burners, BNF to investigate, 533
Robots for Grinding and Chipping Part I, Part II, 82, 134

S
Safety Award, winners, 2
Safety Guidelines, small firms benefit, 489
Safecast, Report on trends in safety equipment, 234
Sand Mixing, Cooling and Reclamation—a Review of Foundry International '86, 598
Science for Industry Exhibition, London, 440
Statistical Process Control, What's new, 305
Strength of Casting Industry—shown at Metals '86, 344
Steel shot for Finishing, 274
Steelfounders visit Spain, 266
South Staffordshire Training Association, 488, 110
Celebration night. Awards, 488, 110

T
Trucast Limited, Fast Lane of Foundry Technology, 327

W
Warwick University, design computerised-method for feeder systems, 564
Weir Founderies Group. Weir sell to William Cook, 489, 305
World Foundry Congress, Report from 53rd at Prague, 399
Worshipful Company of Founders, 50

Y
Young Foundryman Competition, winners, 110

## INDEX OF COMMENTS

All electric Road Show, The, 579
Edge of a Precipice, The,487
Dull Days Ahead, 439
Turning Precision to Advantage, 399
Aftermath, 343
Wasting Disease, 299
Marketing Exercise without Parallel, 176
Undentable Casting, The, 107
Light-Alloy Fortunes, 49
Critical Situation, 1
Uneasy Bedfellows, 531

## AUTHORS

Donaldson, 510
McCombe, C., 444, 403
Plaster, H. J., 410
McDonald, A. K., 416
Ward, C. A., 350
Knight, D. F., 305
Birks, S., 310
Fuller, A. G., 134
Law, T. D., 146
Sille'n, R. V., 146
Hodges, K. I., 150
Fuller, A. G., 107, 82
